

Demographic Dividend Effort Index Survey

Introduction

There is a programmatic need for a standard measure that quantifies the extent of national efforts in policies and programs implemented to cultivate, realize and harness the benefits of a demographic dividend (DD). Despite the remarkable progress achieved by various countries through the integration of demographic dividend principles into their policies and development plans, performance assessment tools and platforms to document best practices and lessons learned to harness the DD are still missing.

Thus, the purpose of the DD Effort Index (DDEI) is to provide a standard measure that will quantify the nature and strength of in-country DD efforts by experts and civil society members across the public and private spheres that represent different dimensions of the society. By measuring efforts, we are capturing inputs independent of outputs, such as income per capita. This will allow us to assess the relationship between inputs that go into the development of DD policies and DD outputs.

This DDEI is guided by one central question: To what extent have the existing national policy and program efforts enabled a favorable policy environment to cultivate, realize and harness the benefits of a demographic dividend? To answer this question, the DDEI will summarize key informant perceptions across six sectors identified in the literature to produce a favorable environment to harness a DD. These DD framework sectors are: 1) Family Planning, 2) Maternal and Child Health, 3) Education, 4) Women's Empowerment, 5) Labor Market, and 6) Good Governance, Strong Institutions and Stable Economy. Each sector is measured through its own questionnaire and will be assessed in five dimensions identified in the literature; namely, policy, services or programs, advocacy, research, and civil society. Each of the 6 questionnaires, completed by 10 expert observers per country, score items on a scale from 1 to 10, unless otherwise noted.

Considering the health and socio-economic impact of COVID-19, and its close relationship with policies that enable a DD favorable policy environment, this DD Effort Index is integrating a module to assess the resilience and sustainability of systems in each sector. The scoring follows the key principles of sustainable and resilient health systems that can effectively respond to emerging infectious disease threats and other public health emergencies.

The DDEI provides an opportunity to visualize the national efforts while assessing the extent to which these efforts support a country's goals to cultivate, realize and harness the demographic dividend. The DDEI will be a tool for performance measurement and progress monitoring, which will provide a timely assessment of successes and gaps and reveal best practices and areas of improvement.

Demographic Dividend Effort Index Survey

Consent form

Thank you for taking the time to complete this questionnaire, especially in this unprecedented time.

The Gates Institute is developing a Demographic Dividend Effort Index (DDEI) to establish a standard measure that will allow the assessment of the existing status of national policies, services, and programs in family planning, maternal and child health, other social sectors (e.g., employment and education), and governance to enable a favorable policy environment to cultivate a demographic dividend (DD). By measuring efforts, this tool will capture inputs independent of outputs, such as income per capita. This will allow the assessment of the relationship between inputs that go into the development of DD policies and DD outputs that are observed and commonly used to assess progress.

We would like to ask you some questions because of your expertise in the area. The information collected will be kept confidential, and we will not be collecting your names or any other identification details. Completing this questionnaire will take around 45-60 min of your time.

We will appreciate your participation in this survey. Information from this interview will be used by the Gates Institute and the community of DD practice in your country to assess the national efforts and identify areas to continue supporting the successes and those that need to be strengthened. Researchers may also use the data collected for cross-country analyses.

You are invited to participate in this survey. Please know that this survey is completely voluntary. By participating, there is no direct benefit to you but there is a societal benefit in enabling the government and development partners to strengthen their efforts to cultivate a DD-favorable environment.

You may refuse to answer any question. Should you have any concerns or issues about the study, you may contact the study coordinator at jcrusatira@jhu.edu or +14436510824 by a phone call or WhatsApp.

* Please check "Yes" if you would like to proceed with the survey.

Demographic Dividend Effort Index Survey

Family Planning Questionnaire

Please respond to the following questions based on your experience/expertise within this specific sector.

To give a summary picture of the national demographic dividend effort, please rate the following items. Score each item from 1 to 10, where 1 represents the lowest score (very weak or no effort) and 10 represents the highest score (strong effort). Where applicable, if a policy or activity is non-existent then mark your response as 0. Please note that a few questions have a different scoring scale.

Please answer each item. All responses will be recorded in the format exemplified below:

Lowest effort	1	2	3	4	5	6	7	8	9	10	Highest effort	I do not know

Demographic Dividend Effort Index Survey

Dimension 1. Policy/Policy making

* FP 1.1 Prominence of Family Planning (FP): Extent to which there is a permanent office or post within the appropriate ministry that develops and monitors sectoral policies and strategies, that is well placed within the government, and staffed by adequately skilled personnel.

	1	2	3	4	5	6	7	8	9	10	Don't know
1-Lowest -> Highest-10	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* FP 1.2 Policy on Fertility Reduction and FP: Extent to which government policy emphasizes FP for family size as it relates to available resources or demographic reasons over health reasons.

	1	2	3	4	5	6	7	8	9	10	Don't know
1-Lowest -> Highest-10	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* FP 1.3 National FP Strategic Plan: Extent to which there is a current, comprehensive, strategic national plan for FP that outlines policies, laws, and regulations for the provisioning of FP. (In making this assessment, consider whether the plan defines a vision; includes multiyear strategies, annual timelines, and implementation plans; is evidence-based; has indicators to measure progress; and considers the FP market.)

	1	2	3	4	5	6	7	8	9	10	Don't know
1-Lowest -> Highest-10	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* FP 1.4 Policy on Age at Marriage: Extent to which legal age at marriage for females is set at 18 years or higher and is enforced.

	1	2	3	4	5	6	7	8	9	10	Don't know
1-Lowest -> Highest-10	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* FP 1.5 Evidence-Based Policymaking: Extent to which the appropriate ministry actively and regularly supports and uses key FP data and reports to engage in policy development and planning.

	1	2	3	4	5	6	7	8	9	10	Don't know
1-Lowest -> Highest-10	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* FP 1.6 Monitoring and Evaluation of National Policies/Plans/Strategies: Extent to which the national FP plan outlines a comprehensive monitoring and evaluation strategy to track and measure accomplishments in the plan.

(In making this assessment, consider whether the monitoring and evaluation strategy includes goals and objectives, a results framework, measurable indicators [e.g., “SMART”: specific, measurable, attainable, relevant and time-bound]; and an actionable monitoring and evaluation implementation plan/timeline.)

	1	2	3	4	5	6	7	8	9	10	Don't know

* FP 1.8 Financing for FP: Extent to which the government has established and applied guidelines for the costing and payments for FP across supply and demand considerations (i.e. domestic versus international funding – and its expectations for continuity/sustainability, cost of contraceptive supplies, cost of service delivery and transportation, etc.).

(In making this assessment, consider whether the guidelines and budget address the following: the lifespan of costs for FP care and services; variable structures of costs per FP method; costs of delivery and service provision by specialization, location and risk; costs and profits of healthcare/insurance schemes, the financial costs of providing FP weighed against the financing costs of not doing so.)

* FP 1.10 Information/Communications Technology Infrastructure/Capacity: Extent to which there are adequate infrastructure components (e.g., computers, servers, printers, a local area network, Internet connectivity, and reliable electric power) as well as human resources (e.g., for maintenance and support) at the national and subnational levels to support the functioning of FP-related information systems.

(In making this assessment, consider whether the country conducts at least annual assessments of its information systems; has training curricula that cover data entry, use, software administration, and development; and continuously trains staff from key stakeholder institutions [e.g., Ministry of Health, Ministry of Education, regulatory agencies, training institutions].)

Demographic Dividend Effort Index Survey

Module: Sectoral Resilience and Sustainability

Considering the health and socio-economic impact of the COVID-19 and the likely impact on the DD progress, this DD effort index has integrated questions to assess the resilience and sustainability of systems in key sectors of the DD framework. The items included in the COVID-19 related questionnaire below follow the key dimensions of resilient systems and provide critical information on the potential of an effective response to emerging infectious disease threats or other public health emergencies.

Please score each item from 1 to 10, where 1 represents the lowest score (poor state/capability) and 10 represents the highest score (great state/capability).

* Physical: facilities, equipment, system states, and capabilities.

	1	2	3	4	5	6	7	8	9	10	Don't know
<p>FP-M1 - Plan/Prepare - State and capability of equipment, personnel and FP program structure prior to the crisis event. (1 = poor state/capability; 10 = great state/capability)</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>FP-M2 - Absorb - Integration: The level of integration of FP services and programs to mitigate the effect of COVID-19 on FP</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>FP-M3 - Absorb - Integration: Extent to which effective supply chain management was able to mitigate the effect of COVID-19 on the supply/provision of FP commodities.</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Demographic Dividend Effort Index Survey

Maternal & Child Health (MCH) Questionnaire

Please respond to the following questions based on your experience/expertise within this specific sector.

To give a summary picture of the national demographic dividend effort, please rate the following items. Score each item from 1 to 10, where 1 represents the lowest score (very weak or no effort) and 10 represents the highest score (strong effort). Where applicable, if a policy or activity is non-existent then mark your response as 0.

Answer each item. All responses will be recorded in the format exemplified below:

Demographic Dividend Effort Index Survey

Module: Sectoral Resilience and Sustainability

Considering the health and socio-economic impact of the COVID-19 and the likely impact on the DD progress, this DD effort index has integrated questions to assess the resilience and sustainability of systems in key sectors of the DD framework. The items included in the COVID-19 related questionnaire below follow the key dimensions of resilient systems and provide critical information on the potential of an effective response to emerging infectious disease threats or other public health emergencies.

Please score each item from 1 to 10, where 1 represents the lowest score (poor state/capability) and 10 represents the highest score (great state/capability).

* Physical: facilities, equipment, system states, and capabilities.

	1	2	3	4	5	6	7	8	9	10	Don't know

Demographic Dividend Effort Index Survey

Education (ED) Questionnaire

Please respond to the following questions based on your experience/expertise within this specific sector.

To give a summary picture of the national demographic dividend effort, please rate the following items. Score each item from 1 to 10, where 1 represents the lowest score (very weak or no effort) and 10 represents the highest score (strong effort). Where applicable, if a policy or activity is non-existent then mark your response as 0.

Answer each item. All responses will be recorded in the format exemplified below:

Demographic Dividend Effort Index Survey

Module: Sectoral Resilience and Sustainability

Considering the health and socio-economic impact of the COVID-19 and the likely impact on the DD progress, this DD effort index has integrated questions to assess the resilience and sustainability of systems in key sectors of the DD framework. The items included in the COVID-19 related questionnaire below follow the key dimensions of resilient systems and provide critical information on the potential of an effective response to emerging infectious disease threats or other public health emergencies.

Please score each item from 1 to 10, where 1 represents the lowest score (poor state/capability) and 10 represents the highest score (great state/capability).

* Physical: facilities, equipment, system states, and capabilities.

	1	2	3	4	5	6	7	8	9	10	Don't know
ED-M1 - Plan/Prepare - State and capability of equipment, personnel and ED sector structure prior to the crisis event. (1 = poor state/capability; 10 = great state/capability)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
ED-M2 - Absorb - Extent to which COVID-19 was recognized within the ED sector and the performance of the system was able to maintain functionality.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
ED-M3 - Absorb - Integration: The level of integration of ED services and programs to mitigate the effect of COVID19 on ED.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
ED-M4 - Recover - Extent to which the ED sector has been able to induce change to recover the pre-COVID-19 level of functionality.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
ED-M5 - Recover - Financing and Donor Management: Level of resources mobilization and allocation to mitigate the effect of COVID-19 on ED.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
ED-M6 - Adapt - Extent to which changes have been made to improve the resilience of the ED sector.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* Information: creation, manipulation, storage, and utilization of data.

	1	2	3	4	5	6	7	8	9	10	Don't know
ED-M7 - Plan/Prepare - Extent to which ED-related data was sufficiently prepared, presented, analyzed and stored prior to the crisis event.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

ED-M8 - Absorb - Awareness: Extent of the surveillance capacity to detect the ED limitations/threats posed by COVID-19. (This includes data that is focused on the variety of education-related concerns that the education sector is facing at each level [primary, secondary, tertiary] of schooling).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Women's Empowerment (WE) Questionnaire

Please respond to the following questions based on your experience/expertise within this specific sector.

To give a summary picture of the national demographic dividend effort, please rate the following items. Score each item from 1 to 10, where 1 represents the lowest score (very weak or no effort) and 10 represents the highest score (strong effort). Where applicable, if a policy or activity is non-existent then mark your response as 0.

Answer each item. All responses will be recorded in the format exemplified below:

Module: Sectoral Resilience and Sustainability

Considering the health and socio-economic impact of the COVID-19 and the likely impact on the DD progress, this DD effort index has integrated questions to assess the resilience and sustainability of systems in key sectors of the DD framework. The items included in the COVID-19 related questionnaire below follow the key dimensions of resilient systems and provide critical information on the potential of an effective response to emerging infectious disease threats or other public health emergencies.

Please score each item from 1 to 10, where 1 represents the lowest score (poor state/capability) and 10 represents the highest score (great state/capability).

* Physical: facilities, equipment, system states, and capabilities.

	1	2	3	4	5	6	7	8	9	10	Don't know
<p>WE-M1 - Plan/Prepare - State and capability of equipment, personnel and WE sector structure prior to the crisis event. (1 = poor state/capability; 10 = great state/capability)</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>WE-M2 - Absorb - Extent to which COVID-19 was recognized within the WE sector and the performance of the system was able to maintain functionality.</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>WE-M3 - Absorb - Integration: The level of integration of WE services and programs to mitigate the effect of COVID-19 on WE.</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Demographic Dividend Effort Index Survey

Labor Market (LM) Questionnaire

Please respond to the following questions based on your experience/expertise within this specific sector.

To give a summary picture of the national demographic dividend effort, please rate the following items. Score each item from 1 to 10, where 1 represents the lowest score (very weak or no effort) and 10 represents the highest score (strong effort). Where applicable, if a policy or activity is non-existent then mark your response as 0.

Answer each item. All responses will be recorded in the format exemplified below:

Demographic Dividend Effort Index Survey

Module: Sectoral Resilience and Sustainability

Considering the health and socio-economic impact of the COVID-19 and the likely impact on the DD progress, this DD effort index has integrated questions to assess the resilience and sustainability of systems in key sectors of the DD framework. The items included in the COVID-19 related questionnaire below follow the key dimensions of resilient systems and provide critical information on the potential of an effective response to emerging infectious disease threats or other public health emergencies.

Please score each item from 1 to 10, where 1 represents the lowest score (poor state/capability) and 10 represents the highest score (great state/capability).

* Physical: facilities, equipment, system states, and capabilities.

	1	2	3	4	5	6	7	8	9	10	Don't know
LM-M1 - Plan/Prepare - State and capability of equipment, personnel and LM sector structure prior to the crisis event. (1 = poor state/capability; 10 = great state/capability)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
LM-M2 - Absorb - Extent to which COVID-19 was recognized within the LM sector and the performance of the system was able to maintain optimal employment and economic productivity.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
LM-M3 - Recover - Extent to which the LM sector has been able to induce change to recover the pre-COVID-19 level of functionality.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	1	2	3	4	5	6	7	8	9	10	Don't know
<p>LM-M4 - Recover - Financing and Donor Management: Extent to which there are established social protection mechanisms (and other forms of income smoothing) for unprotected workers (e.g. self-employed workers, that have no access to paid or sick leave).</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>LM-M5 - Adapt - Financing and Donor Management: Extent to which there has been institutional and policy reforms to build resilience by a demand-led approach through large-scale social protection systems that can act as economic stabilizers</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

* Information: creation, manipulation, storage, and utilization of data.

	1	2	3	4	5	6	7	8	9	10	Don't know
LM-M6 - Plan/Prepare - Extent to which LM-related data was sufficiently prepared, presented, analyzed and stored prior to the crisis event.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

LM-M7 - Absorb - Extent to which the LM sector has been able to conduct a real-time assessment of functionality, in anticipation of cascading losses in LM and productivity.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
--	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

LM-M8 - Recover - Extent to which LM data has been used to track the progress of recovery and to anticipate recovery scenarios.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
---	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

LM-M9 - Adapt - Extent to which the LM sector is creating and improving LM data storage and real-time use protocols.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Demographic Dividend Effort Index Survey

Governance and Economic Institutions (GEI) Questionnaire

Please respond to the following questions based on your experience/expertise within this specific sector.

To give a summary picture of the national demographic dividend effort, please rate the following items. Score each item from 1 to 10, where 1 represents the lowest score (very weak or no effort) and 10 represents the highest score (strong effort). Where applicable, if a policy or activity is non-existent then mark your response as 0.

Answer each item. All responses will be recorded in the format exemplified below:

Demographic Dividend Effort Index Survey

Module: Sectoral Resilience and Sustainability

Considering the health and socio-economic impact of the COVID-19 and the likely impact on the DD progress, this DD effort index has integrated questions to assess the resilience and sustainability of systems in key sectors of the DD framework. The items included in the COVID-19 related questionnaire below follow the key dimensions of resilient systems and provide critical information on the potential of an effective response to emerging infectious disease threats or other public health emergencies.

Please score each item from 1 to 10, where 1 represents the lowest score (poor state/capability) and 10 represents the highest score (great state/capability).

* Physical: facilities, equipment, system states, and capabilities.

	1	2	3	4	5	6	7	8	9	10	Don't know
<p>GEI-M1 - Plan/Prepare - State and capability of equipment, personnel and GEI sector system structure prior to the crisis event. (1 = poor state/capability; 10 = great state/capability)</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>GEI-M2 - Absorb - Extent to which COVID-19 was recognized within the GEI sector system and the performance of the system was able to maintain functionality.</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>GEI-M3 - Absorb - Integration: The level of integration of services and institutional collaborations to ensure continuity of access to essential services during the COVID-19 crisis.</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
